Bio Cleaner™

Cleans Without Harsh Chemicals or Odors

DIRECTIONS FOR USE

InVade™ Bio Cleaner™ contains premium, natural, scum-eating, odor eliminating microbes, citrus oil and other cleaners. For mopping, apply 4 oz to a standard bucket (about 3 gallons) of warm (not scalding hot) mop water. No other cleaners are needed. After mopping, pour remaining mop water in drains. For best results, use at least three times a week. For other greasy, scummy, or smelly areas such as urinals, dumpsters or trash areas and kennels mix InVade Bio Cleaner at a rate of about 8 oz per gallon water and spray areas until moist. InVade Bio Cleaner may also be used in power sprayer systems or hose end sprayers at a rate of about ½ to 2 oz per gallon of water. Do not rinse treated areas or use bleach, caustic cleaners or disinfectants in mop or spray water. This product will not be harmed if blended with an IGR and/or pyrethroid or non-repellent insecticide. The applicable pesticide label must be followed in this instance. Do not apply to direct food contact surfaces.

Precautions: Keep out of reach of children. If more than an incidental amount is swallowed, seek medical attention immediately. Give one glass of water and do not induce vomiting. Wash hands well after use. If in eyes, remove contacts and flush with water for 15 minutes. Seek medical attention for any persistent irritation. Store in a closed, appropriately labeled container between 35 and 95 °F.

Net Contents: 1, 5, 55 US Gallon
