

# InVite™

## fruit fly trap

**Convenient, Discreet, Natural,  
Non-Pesticidal Trap for Fruit Flies  
and Other Small Flies**

The InVite™ Fruit Fly Trap is a quick, easy and effective leave-behind item to attract and trap fruit flies without using pesticides. It is safe for use around food and, once activated, will emit an odor irresistible to fruit flies, including difficult to control dark eyed fruit flies as well as phorid flies. The design of the trap minimizes spills while allowing the trap to be placed on a vertical surface as well as on top of, or beneath, a horizontal surface. The economical trap can be thrown away after use, or reused by simply rinsing and filling with InVite Liquid Lure.

**A clear  
backing  
makes it easy  
to monitor  
the InVite  
Fruit Fly Trap**

**Product Code:  
IFFT012 - Case of 12 traps**
