Power Dose™

Programmable Dispenser Injection System Delivers a Metered Dose of Concentrated Microbial Solution to Drain Lines to Eliminate Organic Build-Up and Odors

Product Codes:

IBPD001: 1 programmable dispenser

IBPC610: 6 x 10 oz cartridges

Easy-to-Install, Compact-Size Dispenser

Allows for flexible installation close to where drain treatment is needed.

Programmable, Battery-Operated* Dispenser Injects One Dose of the Highly Concentrated Power Dose Formula Per Cycle

This continuous dosing of the drain line maximizes the effectiveness of the microbes.

Cartridges Contain Premium, Natural Microbes that Actually Digest Organic Matter

As well as other food. The microbe spores activate when in contact with their food source (organic debris)-based waste and odors.

Easy-To-Replace Cartridges Makes Servicing the Dispenser Units Simple and Quick

A full cartridge holds approximately a 30 day dosing supply of microbial solution.

A Great Addition to Any Bio Sanitation Program

No Harsh Chemicals or Fumes

Will Not Harm Septic Systems or Municipal Water Treatment Operations

Green Zone Product

Suitable for green service programs.

* Requires 2 "C" batteries
